

WATER WILL SERVE LETTER

— and —

FIRE SAFETY REVIEW

Application Packet & Information

Effective January 1, 2022

FEES REQUIRED AT TIME

OF APPLICATION SUBMISSION: \$525.00

Fee Breakdown as follows:

1. *A non-refundable Will Serve Application processing fee of \$350.00.*
2. *Fire Safety Review Letter Fee of \$175.00. If the project is over 5000 square feet (sf), an additional fee of \$.025 per sf over 5000 sf will be required.*
3. *Note that additional fees may be due at time of Will Serve Letter, or Fire Safety Letter pick up.*

Application Checklist

Information required for ALL applications:

- ✓ Completed **Water Will Serve Letter & Fire Safety Review Application**

Items to attach to application:

- Plot Plan
- Construction Plans - 1 digital PDF file emailed to PermitTech@templetoncsd.org.

Note that the maximum size accepted via email is 10MB.

- Construction Plans – 1 Complete Half-Size Plan Set (50% scale)
- Title Report or Lot Book Guarantee dated within last 30 days
- Application fee in the amount of \$525.00

Additional information required for all NON-RESIDENTIAL applications:

- ✓ Completed **Wastewater User Survey Form**

Survey is required for all non-residential applications. A Wastewater Discharge Permit may be required based on the information provided in the Wastewater Survey. Food Service Businesses should complete the Food Service Wastewater Discharge Permit instead.

— Or —

- ✓ Completed **Food Service Wastewater Discharge Permit Application**

All food service businesses must obtain a wastewater discharge permit and install grease interceptors.

Items to attach to application:

- Complete Plumbing Plan
- Specifications of proposed Grease Trap or Interceptor
- Cut Sheets for proposed Grease Trap or Interceptor
- Description of business operations, maintenance, and cleaning procedures

NOTICE TO BUILDERS/CONTRACTORS/HOMEOWNERS

Templeton Community Services District Ordinance 2002-3 requires a capital facilities fee per square foot of newly constructed space on all new construction and/or addition.

Templeton Community Services District Ordinance 2013-4 requires the following to be fitted with fire safety sprinklers:

New Construction: An automatic fire extinguishing system shall be installed and maintained in all new buildings in "A," "B," "C," "D," "E," "F," "H," "I," "M," "R," "S," and "U" occupancies as defined by the Uniform Building Code, regardless of type of construction or floor area, for which any Building Permit is issued after the effective date of this Ordinance.

Exceptions:

- (i) Detached Group B, C, M occupancies not exceeding 500 square feet and located at least 10 feet from adjacent buildings and 5 feet from adjacent property lines.
- (ii) Some "U" * uses may be exempted by the fire code official based on specific use (i.e. carports, fences, livestock shelters)

★ May not exceed 3,000 square feet – must be at least 10 feet from adjacent buildings – no second stories – minimum two exists including one pedestrian door – workshops or offices limited to 10% of floor area – cannot be used for a place of employment or for public assemblage/events – cannot be used as a commercial building.

Note: "U" occupancies converted to conditioned habitable space will be required to install an automatic fire extinguishing system.

Existing Construction: An automatic fire extinguishing system shall be installed in all existing buildings or structures where proposed or ongoing additions, seismic retrofit, alterations or repairs are commenced over a three-year period, which meet one or more of the following:

- (i) Throughout structure where additions to existing buildings adds up to more than 50% of the existing square footage;
- (ii) Throughout existing and new sections of an existing building where the floor area is increased by 1,000 square feet;
- (iii) Alterations including modifications to an existing structure which involves complete removal and replacement of 50% or more of the wallboard;
- (iv) Have a total floor area exceeding five thousand (5,000) square feet;
- (v) When a second story or higher is added; When occupancy change increases fire risk or hazard, as determined by the fire code official.

For the purpose of calculating square footage for the application of fire sprinkler and fire flow requirements, the floor area shall include all combustible areas attached to the structure, including garages, patio covers or common areas (protected on three sides), overhangs over 2 feet, and covered walkways.

Furthermore, when an automatic fire extinguishing system is required for an existing single family residence due to an addition, fire sprinklers shall not be required for vaulted ceilings in the existing residence where there is no accessible attic space; otherwise, the addition and all other existing rooms and spaces in the residence shall be equipped with the fire sprinkler system.

Regardless of additions, alterations or repairs in existing sprinklered buildings, sprinkler coverages shall remain as per the National Fire Protection Association 13, 13R, or 13D Standards, whichever are applied by the fire code official.

Single-family residence builders please note: Your sprinkler contractor's design and calculations will determine the size of the water meter required. Please consult with your sprinkler contractor prior to requesting your water meter to be installed.
